

GREENTECH

Visit us at stand 310

Category: Cosmetics & Nutricosmetics

Type: Ingredients - Biotechnologies

Pionnier des biotechnologies éthiques depuis plus de 30 ans, Greentech recherche, développe et produit des ingrédients actifs de haute technologie depuis des sources naturelles issues des mondes végétaux, marins et microbiens, dans le respect des Hommes et de l'environnement. Au cœur de ces ingrédients, toute la performance de la nature, valorisée par des procédés de pointe (extraction bioguidée, bio-purification enzymatique, fermentation, bioconversion, ...) et fondée sur de grandes expertises scientifiques (holobionte, microbiote, psychobiologie, exposome, biomimétisme...)

Pioneer in ethical biotechnologies for over 30 years, Greentech researches, develops and produces high-tech active ingredients from natural sources from the plant, marine and microbial worlds, with respect for People and the Environment. At the heart of these ingredients, all of nature's performance, enhanced by cutting-edge processes (bioguided extraction, enzymatic bio-purification, fermentation, bioconversion...), whose bioactivity and clinical efficacy are demonstrated by in vitro studies on skin cells, ex vivo on skin explants and in vivo on human volunteers. The active cosmetic ingredients developed by GREENTECH are based on major scientific expertise (Holobiont, microbiota, psychobiology, exposome, biomimetism...) and cover all cosmetic applications for the care, maintenance and protection of the skin, scalp, nails and hair.
